

*State of Washington*  
**Health Professional Scholarship**  
**Shortage Areas**  
*January 2008*

## **Facilities**

Health Professional Scholarship recipients may locate at any of the following in Washington:

- State Correctional Facilities
- State Mental Health Hospitals
- Community and Migrant Health Centers (Federally-Qualified Health Centers)
- Any other facility (public, non-profit, or private) with more than 40 percent of its caseload consisting of Medicaid and sliding-fee discount schedule patients.
- Any facility listed in a shortage area for your profession

**All scholarship recipients must be employed in direct primary care and not in a specialty clinic. Urgent/Emergent is not considered primary care. You must work for the facility – and not work through a placement agency.**

## **Shortage Areas by Profession**

### **Nursing:**

- There are no geographic restrictions for practical or registered nurses at this time.
- Nursing educators must work a full-time equivalent in a combination of faculty and clinical positions in Washington state. Faculty positions must be in a Washington state undergraduate nursing program that is experiencing a critical shortage of qualified faculty.

### **Other Professions:**

- Shortage areas for the other professions are listed in the following table divided between Western and Eastern Washington.
- \*HSA's (Shortage areas) are based on zip codes surrounding a core health facility such as a hospital or local public health department. Example: Yelm is listed, but clinics in surrounding areas such as McKenna or Roy would be included in the service area. Another example: Ellensburg is listed but clinics in Kittitas or Vantage would also be included in the service area.

\* (The University of Washington WWAMI Rural Health Research Center developed Health Service Area [HSA] boundaries.)
